GRANITE INDUSTRIES

Quality Speaks

About Us

SRR GRANITE INDUSTRIES came into existence in the year 1990 in south India (Telangana State, Khammam). In conformity with its commitment to excellence, the company has installed the most sophisticated and environment-friendly granite processing machinery.

Each slab of our collections is with the artistry of nature which displays the legendary stories of the quarry it comes from and thereby defines its best use, We never use pigment for the slabs, It's a natural product.

Over the years we work hard to excel in the field of natural stones by ensuring high standards of selection in block procurement with a relentless focus on quality and a customer centric approach.

We have a huge manufacturing unit of production more than 1 lakh sft per month with multicutter machinery and also an automated polish unit and we also have our own quarries in south India (Telangana & Andhra Pradesh) we are the leader in supplying the black color finished slabs in various dimensions and thickness. **Our specialization in Thick Slabs and Monuments with fine quality according to customer requirement.**

Our products are sourced from the finest quarries in south India and only the most premium grade of material is procured for our customers. Our stockyards are the largest and provide the widest range of readily available material.

Our customer centric approach and focus for quality makes us the first choice for varied architectural requirements. Sharing knowledge and making relationships for a lifetime.

We welcome you to be a part of this journey!
